

Agios Pharmaceuticals to Present at the Jefferies 2012 Global Healthcare Conference

May 29, 2012 1:37 PM ET

Cambridge, Mass. – May 29, 2012 – Agios Pharmaceuticals, the leading biopharmaceutical company focused on discovering and developing novel drugs in the fields of cancer metabolism and rare metabolic genetic diseases, today announced that David Schenkein, M.D., chief executive officer, is scheduled to present at the Jefferies 2012 Global Healthcare Conference on Tuesday, June 5, 2012 at 2:30PM EST in New York City.

Dr. Schenkein is expected to discuss the company's portfolio of cancer metabolism therapeutics, its expansion into targeting inborn errors of metabolism, and the assets and capabilities that position Agios as a leader in dysregulated metabolism.

About Agios Pharmaceuticals

Agios Pharmaceuticals is the first biopharmaceutical company dedicated to the discovery and development of novel therapeutics in the field of cancer metabolism. To support and drive these efforts, Agios has built a robust platform integrating cancer biology, metabolomics, biochemistry and informatics to enable target and biomarker identification. Agios' capabilities to interrogate differential cellular metabolism of diseased cells relative to normal cells may also be applicable to other therapeutics areas including inborn errors of metabolism, a class of genetic diseases caused by mutations/defects of single metabolic genes. The company's founders represent the core thought leaders in the field of cancer metabolism, responsible for key advances, insights and discoveries in the field. Agios Pharmaceuticals is located in Cambridge, Massachusetts. For more information, please visit the company's website at www.agios.com.
